

Amendment 2

The purpose of Amendment 2 to the RFP is to clarify content and extend the submission deadline to allow potential respondents additional time to prepare quality responses.

By action taken by the Borough Council on April 22, 2019, the following amendments to the Request for Proposal (RFP) were adopted:

1. The Process section of the RFP is amended as follows: the submission date is now extended until July 1, 2019 in paragraph 1, and all of the other dates in the Process section are also extended by two months.
2. The designs and development program included in the RFP are purely conceptual. The only mandated programmatic element is compliance with the Borough's affordable housing requirement. Respondents are encouraged to include or omit specific elements of the development program as they choose.
