

Adopt a Park Site

Bernardsville Community Adopt a Park Site

Welcome to the Adopt a Park Site Project! The Bernardsville Green Team is proud to introduce the Bernardsville Family Adopt a Park Site Program. Many of Bernardsville's Public Parks have been divided into sites that are small enough for a single family or group to conduct a trash clean up in about an hour. By adopting a site, each group is agreeing to clean their site at least once a month. Every adoptive family or group will be listed on the Bernardsville Green Team website next to the site description for the site they have adopted. Each group must have an adult over the age of 18 who will be present at the cleanups.

To adopt a site, please select an available site from the list. Once you have selected a site, please email program coordinator, Christine Zamarra at cleanbernardsville@gmail.com with:

- 1) The name of your selected site, example Claremont Park, Site 2
- 2) The name of the adult who will attend clean ups, along with their email address.
- 3) The name of your group or family as you would like it to appear on the Bernardsville Green Team website next to the description of the site you have adopted.

Once it is confirmed that the site is available, you will receive a confirmation email, your group's name will be listed on the website, and you can start your cleanups. Collected trash can be placed in trash containers at the parks, and we strongly encourage recycling. Your family will probably want to bring trash bags and gloves to minimize trips to the trash cans. IF you need gloves and bags supplied to you, please let the coordinator know in advance.

Look for sites at:

Nervine pond/Rose Bowl Field

Polo grounds/Ice Rink/Tennis Courts/Bedwell Playground

Kiwanis/Pine Street Playground

Claremont Park/Playground
